

## Film Club

They say a picture says a thousand words, but why not combine both? The Pymble Film Clubs give students the opportunity to harness their imaginations through the mediums of film and technology. Students will be guided by industry professionals to understand how movies are made and to experience this process first-hand by learning how to combine all the elements of the arts to create their own short film.

The Junior Film Club for Years 5 and 6 will delve into the world of animated film. By participating in the Film Clubs, students are taught the foundations of filming and editing and are able to extend their skills and work alongside other girls from different year levels.
