Code Club

Code Club will introduce computer programming, aka coding, in a fun and creative way, with the help of an expert guide who is experienced in training girls to code. Girls will design and code apps, games and websites on their journey. But it's so much more than making apps or websites. Steve Jobs, Apple's co-founder said, "I think everybody in this country should learn how to program a computer because it teaches you how to think." We agree for many reasons. Firstly, coding teaches us how to break problems down and how to then find ways to solve them. It also allows us to test our ideas allowing us to readily apply what we learn in robotics, maths, science and technology. It is also a valuable life skill for the 21st Century, with the knowledge of one programming language being transferable to many programming languages.

This activity will also be available for registration in Term 3 and 4 (Semester 2); days, times and teachers will be released at the end of Term 2.

Program Co-ordinator	Dr Kristie Spence
Teacher	Code Rangers Tutor Nicola O'Brien
Term/s	Term 1 and 2 (Semester 1)
Years	Year 7 to 12
Days/Times	Wednesday 3.30pm to 5.00pm
Cost	Semester 1: $440.00 (there may be an additional charge for optional entry into competitions and challenges) Term 2 only: $195.00
Minimum/Maximum	Min: 8 students Max: 30 students
Program Dates (Start/End) Wednesdays	Term 1: Wednesday 8 February to Wednesday 5 April Term 2: Wednesday 3 May to Wednesday 21 June
Venues	DK Innovative Learning Area
Equipment	Students will be required to bring their laptops to their coding sessions
Further Information	There will be options for students to enter into competitions
